“Casting the vision”  
Nehemiah Chapter 2 verses 11 - 20

In these verses Nehemiah is facing the kind of situation that happens in many churches. When you have a vision from God there will always be external and internal problems to overcome. We see Nehemiah’s strategy involves, challenging, motivating and encouraging. These elements are so important if a church is to move forward in achieving what God wants of it.

Bearing this in mind look at the following questions.

- 1) What conflicts, if any, do you see between being organized and being dependent on the Holy Spirit?
- 2) Why are the four elements of Nehemiah’s speech (Verses 17 - 18) so critical to motivating the people?
- 3) Which elements is most needed for motivating our church?
- 4) S. D. Gordon (1859-1936), author and lay minister said” “A united church would be an unconquerable church”. Do you agree?
